

RECARO

**TIME-HONoured SEAT
DESIGN FOR PEOPLE
WHO ARE GOING PLACES.**

**RECARO CLASSIC
LX AND LS:
A CLASSIC
REDEFINED.**

THE NEW EDITION OF OUR CLASSIC RECARO LX AND LS SEATS: NOTHING BEATS THE ORIGINAL.

RECARO – priceless originality.

A classic car should be as original and authentic as possible. Any conversions or accessories must remain true to the era of the car's creation. Who better to make seats for your classic car than the company that made the original seats in the first place?

The RECARO LX and LS echo the outstanding design of RECARO seats from the 1980s, making them the perfect complement to classic car interiors.

This brochure has been inspired by the booklets we designed back then. The RECARO seats presented here are the culmination of everything we know today about safe, ergonomic seating. Every RECARO seat fulfills the highest possible standards in workmanship, style and individual comfort.

All of our seats provide the ideal sitting position for your body, so you can be sure of sharp reactions, powerful performance and confident, safe driving.

"A RECARO seat allows you to use the steering wheel as an actual steering wheel – not a support wheel!" explains rally legend Walter Röhrl.

Feel different, drive different!

Safety.

When manufacturing our seats, we make safety our number one priority. Safety determines the quality of every seat and is nowhere more important than in the seat's inner workings.

The steel frame at the seat's core, the spring elements, the special, energy-absorbing steel backrest, the seat frame that remains rigid even in lateral directions, the strong side bolsters and the extreme sturdiness of the entire structure that can absorb forces without splintering: these are all crucial safety features for the driver. Not

forgetting, of course, the fully upholstered head rests that are height- and tilt-adjustable.

An ABE (general type approval) is available for many classic cars as well as for more modern vehicles. The seat can usually be included in the general type approval as an individual entry.

Ergonomics and Comfort.

Our upholstery is designed in accordance with the latest scientific research into relieving muscular stress. That's why RECARO seats aren't too soft; instead, they provide the body with a fine-tuned firmness that won't

tire the driver during long drives. "I don't need a sofa in my car – I need a seat that is comfortable enough for long drives but still gives me excellent feedback from the car," says Walter Röhrl.

We have further enhanced climate comfort by using effective material, structured cover fabric and a thick woolen fleece layer that absorbs moisture. Our super-breathable fabrics and base upholstery help to "air condition" your body.

RECARO CLASSIC SEATS. APPROVED BY WALTER RÖHRL.

Walter Röhrl has always been a racing giant. Quite literally! At 6' 4" he certainly lives up to his nickname, "The Tall One". In order to achieve the perfect sitting position, he installed RECARO sports seats in his very first racing cars – a BMW 2002 ti and a Porsche 911 S. Because back then the sporty performance, quality and safety of our seats was as unique as it is today. When it came to choosing his seat, he had just one condition: "It has to be a RECARO!". That meant in his private and classic cars, too. This was a fortunate decision, for at the 1985 San Remo Rally Walter managed to survive the most serious accident of his career relatively unscathed. RECARO is the obvious choice for those who want the certainty of a seat's protection when driving at the limit.

Like Walter, anyone with a passion for rallying knows it's one of the most demanding experiences that a human and a seat can go through. "If you get out of your racing car having won a 40-hour race with no back pain to show for it, you know the seat manufacturer has done everything right."

Since the beginning of his career 50 years ago, Walter has always worked closely with RECARO. A friendship to last a lifetime. That's why we're so proud to have Walter on board as a partner for our Classic seats.

He's on hand during product development with his advice and assistance and brings a wealth of expertise to the design and upholstery table.

Only RECARO seats have been personally checked by Walter Röhrl and given his approval for their superb characteristics. Our Classic seats are no exception. They are recognizable by the special "Approved by Walter Röhrl" seal.

Walter also used authentic RECARO seats when rebuilding his beloved 911 S – in none other than the legendary shepherd's plaid/leather mix. Our new Classic seats are also available in this design.

RECARO CLASSIC LX: INSTANT COMFORT FOR INSTANT BENEFITS.

If you're looking for sensible seating that doesn't cut back on individual comfort or sophisticated design, then look no further than the RECARO Classic LX. The moment you sit down, you'll know that it ticks all the boxes.

The seating comfort of the RECARO Classic LX is enhanced by an extendable front seat cushion that helps to relieve strain on the thighs. The combination of structured

and breathable cushion material provides optimal climate control, even in extreme temperatures.

RECARO Classic LX.

Features:

- Paddable lumbar support.
- Backrest can be folded far forwards for easy access to the back seats.
- Individual seat depth adjustment (480 to 530 mm).
- Side bolsters in the backrest.

- Seat rib upholstery for optimal body fit.
- Fully upholstered headrests as standard.
- Backrest adjustment and front folding mechanism on both sides of the seat.

RECARO CLASSIC LS: THE OPTIMUM SEAT FOR A SPORTY DRIVE.

If you enjoy the thrill of ripping round sharp corners more than most, you need exceptional lateral support. In which case, the RECARO Classic LS is made for you. Its impressive sporty side bolsters in the backrest give you the safe support you need for driving round corners at speed. The paddable lumbar support and adjustable seat depth help to relieve strain on the driver's muscles, enhancing its sporty feel.

RECARO design doesn't take its lead from fleeting fashion trends but is shaped by function alone. For years, Frank Beermann's team has been responsible for industrial design. They create the timeless aesthetic that gives all RECARO seats a contemporary look, whatever the current whims of fashion.

We can offer you many different options to change the look of your RECARO seat so that it perfectly complements your classic car. Our range of cover materials includes a variety of authentic, premium quality polyester-free fabrics,

as well as leather. Our exclusive seat leather is produced in Italy using sustainable, carbon-neutral methods.

True craftsmanship.

A great deal of traditional craftsmanship goes into our seats. From the delicate seams and seat upholstery to the superb finish, the finely honed skills of our craftsmen shine through. Not even the tiniest detail escapes their expert eye, ensuring that every single feature underlines RECARO's claim to premium status.

Original cover fabrics.

Do you want your RECARO seats to have the car manufacturer's original cover fabric? Your wish is our command! Our cover fabric range includes classic options such as checkered fabric as well as other traditional brand cover fabrics. If you have any questions about our original fabric covers, please don't hesitate to contact our customer services or your local RECARO partner.
